● Youth unemployment rate [Age: 15-29]

● Youth labour force participation rate [Age: 15-29]

Source: ILOSTAT

Algeria's cultural wealth can be utilised to build a robust foundation for the development of cultural and creative industries. By investing in these industries, Algeria can foster an economy that is more diverse and inclusive, allowing young people and women to play an active role in the country's growth and development. Moreover, this investment can help preserve and promote Algerian culture and heritage, which is an integral part of the country's national identity and pride.

Prepared by the Euro-Mediterranean Economists Association. February 2023
