INVESTMED - 10.05.21
The Euro-Mediterranean Economists Association (EMEA) is a Barcelona-based regional organization established in 2012, that serves as a leading independent and innovative policy research institution; a forum for debate on the political and socio-economic reforms in Mediterranean and Africa; and promoter of actions and initiatives that fulfil objectives of sustainability, inclusiveness, regional integration and prosperity. It strives to contribute to the rethinking of the Euro-Mediterranean and Africa partnerships in view of the new dynamics of an emerging multi-polar world and amidst of protracted crises. EMEA has a large network of economists, high-level experts and institutional partners (research institutes, think tanks and universities) in the Euro-Mediterranean and Africa. EMEA builds on the collaborative research network MEDPRO (funded by the EU’s Seventh Framework Programme (2009-13) and provides forward-looking thinking and political and socio-economic integrated analyses on the Euro-Mediterranean region.

EMEA is also the promoter and co-funder of the Euro-Mediterranean Network for Economic Studies (EMNES), co-funded by the European Commission (DG NEAR) between 2015 and 2019. EMNES is a regional network composed of 30 institutions and more than 100 experts and researchers in the Mediterranean region. From January 2020, EMEA coordinates EMNES.

Furthermore EMEA promotes and co-funds the Euro-Mediterranean Guarantee Network (EMGN), which aims to alleviate the region’s structural constraints for MSMEs to access to finance by gathering guarantee schemes active in the countries of the Euro-Mediterranean Partnership.

The CREAT4MED project builds on the research work conducted by the EMEA and EMNES in the past years on emerging socio-economic trends, challenges and needs in order to develop a renewed vision of socio-economic development in the South Neighbourhood Countries (SNCs). It aims to boost entrepreneurship and job creation for youth and women through the cultural and creative industries in the Southern Neighborhood of the European Union. CREAT4MED is coordinated by the Euro-Mediterranean Economists Association and is co-funded by the European Union.

The Interreg Med Renewable Energy Project, one of the 8 MED Horizontal Projects of the Interreg Med Programme, co-financed by the European Regional Development Fund. The capitalisation strategy of the project is set through the Ecosystemic Transition Unit (ETU initiative) a governance model for energy transition in rural and islands areas in the Mediterranean Region.

EMEA will coordinate the advocacy and policy mainstreaming actions will enhance knowledge transfer and synergies on climate change, energy transition, sustainability and green economy.

The INVESTMED project aims at supporting new, sustainable business opportunities for young people and women in three Mediterranean Partner Countries: Egypt, Lebanon and Tunisia. It will have an impact on MSMEs, start-ups and recently established enterprises where staff will be trained and coached to become more sustainable and competitive and financially supported via an open competition. The INVESTMED project is co-funded by the European Union under the ENI CBC Mediterranean Sea Basin Programme 2014-2020.

THANK YOU
